patricio@espejozen.cl

I am a Software Engineer with more than 10 years of experience performing roles as Web Developer, Project Manager, IT Support Coordinator and Fullstack Developer, in companies of different areas, such as Industry, Engineering and Health.

I always seek to grow and generates changes that add value to the projects in which I participate. I believe that the basis of success is in teamwork, empathy, responsibility and talent that each member can contribute to common goals. I believe in good leadership, which generates commitment and results, being part of the team, as well as guides and mentors of potential talents and personal growth.
